THE 'PRO'FILE

Clinical Value - High Quality Instruments to Ensure the Best Results

TIME

Saves time having to open multiple packs to find a sharp and effective instrument

With all the relevant instruments in one pack there is no need to add individual instruments unnecessarily

Make sure you always have the right instrument at the right time

LIFE

Ensure an effective sample is taken to help the diagnosis of diseases such as skin cancer

COST

Single-use, removes the cost of sterilising packs after use

Sharpness guaranteed meaning our Packs are a cost-effective alternative in comparison to poor quality, cheap instruments that require opening multiple packs per patient

Clinicians' Experiences

Don't just take our word for it ...

"I am looking for consistent quality and good delivery."

Clinical Nurse Specialist, Dermatology Department, Bedfordshire

"I need a better quality pack and good service."

Dermatology Sister, Hampshire
